CRIME IN SOUTH CAROLINA

1988

Released by South Carolina Law Enforcement Division

SOUTH CAROLINA LAW ENFORCEMENT DIVISION

CARROLL A. CAMPBELL, JR.
Governor

ROBERT M. STEWART
Chief

4400 Broad River Road (J.P. Strom Boulevard) • Mail: P.O. Box 21398
Columbia, South Carolina 29221-1398 • Phone: 803/737-9000

May 22, 1989

The 1988 edition of Crime In South Carolina provides a great deal of information useful to law enforcement, government, and the public. I would like to thank those law enforcement professionals at the municipal, county, and state levels, without whose cooperation and assistance this publication would not be possible.

Robert M. Stewart, Chief
State Law Enforcement Division

BACKGROUND OF UNIFORM CRIME REPORTING

NATIONAL UCR PROGRAM

Development of the current nationwide Uniform Crime Reporting (UCR) Program began over fifty years ago. In 1930, crime counts were first requested from local police departments with the Federal Bureau of Investigation (FBI) designated by Congress to collect, compile and analyze the statistics. The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) played a primary role in the origin and development of UCR and today serves in a strong advisory capacity. Standardized offense classification and counting procedures developed by the IACP are the basis for the UCR program. The National Sheriffs' Association (NSA) also serves in an advisory role to the national program. The publication, Crime in the United States, is the annual report published by the FBI dealing with national crime statistics.

In recent years the FBI has actively assisted states in the development of state level UCR programs compatible with the national system.

SOUTH CAROLINA UCR PROGRAM

South Carolina was one of the first states to implement an operational state UCR program. The South Carolina Law Enforcement Division is the agency administering the program. The information collected and the uniform classification under which it is collected are based directly upon the guidelines developed by the IACP and FBI.

Upon initiation of the South Carolina UCR program in July, 1973, SLED, in conjunction with the FBI, held workshops around the state to instruct or refresh the county and city law enforcement agencies on the scope of the program and the mechanics of completing the forms.

Since that time, SLED, along with the local law enforcement agencies, has instituted an incident-based records management system which has greatly enhanced and improved the quality of information gathered under the Uniform Crime Reports system. Under this new procedure crime data and other information gathered by municipal and county law enforcement agencies are collected and submitted to SLED on a daily, monthly and annual basis. This new system lends itself to a more complete and accurate crime reporting system which, in most instances, alleviates some of the paperwork with which many departments have been burdened. An additional advantage of using standard incident and booking reports has been realized from the uniformity of documents. Standardized reports facilitate the exchange of information between law enforcement agencies within the state. The forms have been included in the report writing classes taught at the South Carolina Criminal Justice Academy.

OBJECTIVES

The fundamental objectives of the South Carolina Uniform Crime Reporting Program are:

(1) To inform the governor, legislature, other governmental officials and the public as to the nature of the crime problem in South Carolina.

(2) To provide law enforcement administrators with criminal statistics for administrative and operational use.

(3) To determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.

(4) To provide base data and statistics to help measure the workload and effectiveness of the criminal justice system.

(5) To provide base data for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

A particular important goal of the state UCR program is to return statistical information to the contributors. With implementation of the new incident reporting system, participating police agencies furnish data that are verified and then returned to each jurisdiction in the form of monthly printouts. Contributing agencies then possess detailed information showing crime trends within their jurisdictions. The information enables them to make decisions in budgeting, manpower allocations and the identification of high crime areas.

This information is also forwarded by SLED to the FBI on a monthly basis for inclusion in the FBI's annual UCR publication.

REPORTING AND CLASSIFICATION

In reporting offenses to the Uniform Crime Reports program, crimes are classified according to standard definitions (given in a later section of the report) that are used throughout the nation. The UCR definitions are designed to insure that offenses with different titles under the laws of the various states are appropriately classified and counted under the UCR program without regard to findings of courts or juries, since the statistics are gathered primarily to assist in identifying areas of concern to law enforcement officers, and not meant to reflect the outcomes of inquests, hearings or trials.

CRIME FACTORS

The presence of crime in our State is a matter of serious concern not only to the law enforcement profession, but to society at large. Historically, the causes and origins of crime have been the subjects of investigation by varied disciplines. Some factors affecting the volume and type of crime occurring from place to place are:

Population density and degree of urbanization with size of locality and its surrounding area.

Variations in composition of the population, particularly youth concentration.

Stability of population with respect to residents' mobility, commuting patterns, and transient factors.

Modes of transportation and highway system.

Economic conditions, including median income, destitution, and job availability.

Cultural conditions, such as educational, recreational, and religous characteristics.

Climate.

Effective strength of law enforcement agencies.

Administrative, investigative, and reporting emphases of law enforcement.

Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).

Attitudes of citizentry toward crime.

Crime reporting practices of citizentry.

Crime in South Carolina gives a statewide view of crime based on statistics contributed by state and local law enforcement agencies. Population size is the only correlate of crime utilized in this publication. While the other factors listed above are of equal concern, no attempt is made to relate them to the data presented. The reader is, therefore, cautioned against comparing statistical data of individual cities, counties, or universities solely on the basis of their population coverage.

SOUTH CAROLINA CRIME INDEX

The tabulation presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation, and distribution of crime in South Carolina on the basis of a crime index. The crime figures are categorized by agency, county and state on the basis of information submitted by police agencies from these areas. The seven offenses comprising the crime index are:

1. Murder
2. Rape
3. Robbery
4. Agg.Assault
5. Breaking or Entering
6. Larceny
7. Motor Veh.Theft

Definitions of these seven offenses can be found elsewhere in this book under their separate headings.

The crime index is used as a basic measure of crime. The crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence and the reliability of reporting from citizens to law enforcement agencies. The offenses of murder, rape, robbery and aggravated assault are categorized as violent crimes. Offenses of breaking or entering, larceny and motor vehicle theft are classed as nonviolent crimes. The crime index is the total of these offenses that come to the attention of law enforcment agencies.

In reviewing crime index figures, the reader should bear in mind that there is currently no way of determining the total number of crimes committed. The crime index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. It is important to remember in reviewing the tables and graphs in this report that the volume of crime in a given area of municipality is related to the crime factors previously listed in this report.

CRIME RATES

The crime rate indicates the number of Index Crimes per unit of population, generally per 10,000. It should be noted that the rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

The population data used in this report are supplied by the State Data Center, Division of Research and Statistical Services. The figures are based upon the latest projected population counts available from the State Data Center, July 1988.

PERCENT CHANGE

The percent changes in number of offenses and arrests from year to year are shown in a number of tables in the publication. The percent change shown after any 1986 figures reflect a comparison to information reported in 1985.

VIOLENT CRIME

Crimes of violence include murder, rape, robbery and aggravated assault. Violent crimes involve the element of personal confrontation between the victim and the offender and, because of their nature, are generally considered to be more serious than nonviolent crimes.

NONVIOLENT CRIME

For UCR purposes, nonviolent crimes include the offenses of breaking or entering, larceny, and motor vehicle theft. While these offenses generally do not involve personal danger to the victim, the value of property lost in these crimes is many times greater than in violent crimes.

ARSON

The offense of arson, defined for UCR purposes as any willful and malicious burning of any type of property, is included in this report. It has not been included in any trend data.

PERCENT ROUNDING

Percentages shown in this publication may not add to 100 due to gross rounding (usually shown to the nearest tenth).

UPDATED DATA

Any data published here concerning figures for prior years supersede those in previous reports.

SOUTH CAROLINA
CRIME CLOCK
1988

one
CRIME INDEX OFFENSE

every 11 minutes

one
LARCENY
every 5 minutes

one
MOTOR VEHICLE THEFT
every 50 minutes

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather it represents the annual ratio of crime to fixed time intervals.

1986-1988 INDEX CRIME TRENDS

Offense	1986	% Change	1987	% Change	1988	% Change
Murder	291	-4.9	319	+9.6	325	+1.8
Rape	1,395	+0.9	1,506	+8.0	1,492	-0.9
Robbery	3,357	+6.8	3,465	+3.2	4,333	+25.1

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender and there is enough evidence to charge him whether or not he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in clearing one crime. Clearances are recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

1986-88 CLEARANCE TRENDS

Offense	Year	Number Of Offenses	Total Cleared	% Cleared	No.Cleared* Under Age 18
Murder	1986	291	262	90.0	5

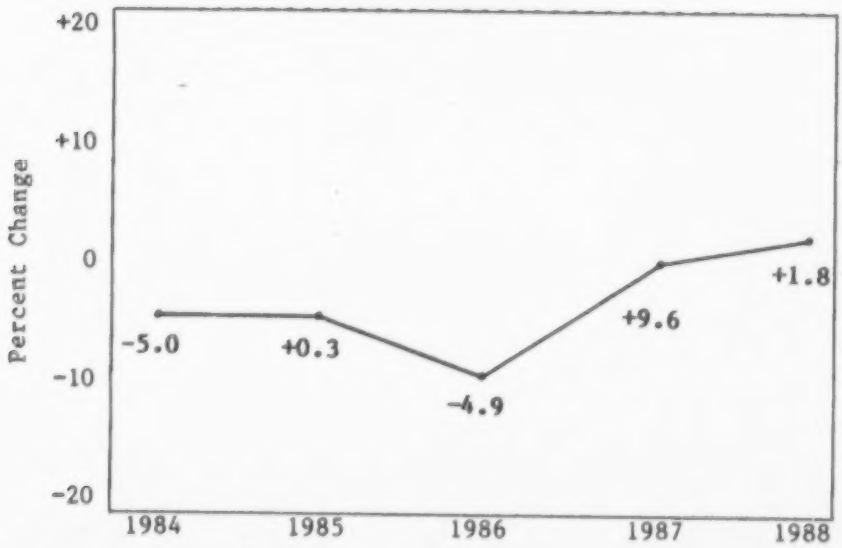
MURDER



Murder is defined as the willful (non-negligent) killing of one human being by another except those cases classified as justifiable homicides. Under the UCR definition, justifiable homicides are specifically limited to the killing of an offender by a police officer in the line of duty or the killing of a felon by a private citizen. This definition does not take into consideration the findings of coroners' juries or other courts. Suicides are not defined as murders under UCR. Attempts to commit murder are classified as aggravated assaults.

1988 SUMMARY

A total of 325 murders was reported in 1988. During this year, the number of murders increased 1.8 percent compared to those reported in 1987.

There were 301 murders cleared by arrest or exceptionally cleared, amounting to a clearance rate of 92.6 percent statewide.

Murders accounted for 1.3 percent of all violent crimes and 0.2 percent of the total crime index. The murder rate in South Carolina was 0.94 per 10,000 persons.

The age group 30-34 accounted for 14.6 percent of persons arrested for murder. Males represented 81.5 percent of the total arrests made for murder.

Firearms were used in 61.8 percent of the murders, cutting instruments in 20.9 percent, hands and feet in 5.2 percent, and other weapons in 12.0 percent.

Victims in the age group 25-29 accounted for 18.5 percent of those killed. Victims killed most frequently were black males between the ages of 25-34.

Alcohol was known to have been present in 6.8 percent of all murders, drugs were known to have been connected with 4.0 percent, and alcohol and drugs were known to have been connected with 0.6 percent.

1988 MURDER VICTIMS BY AGE, SEX, AND RACE

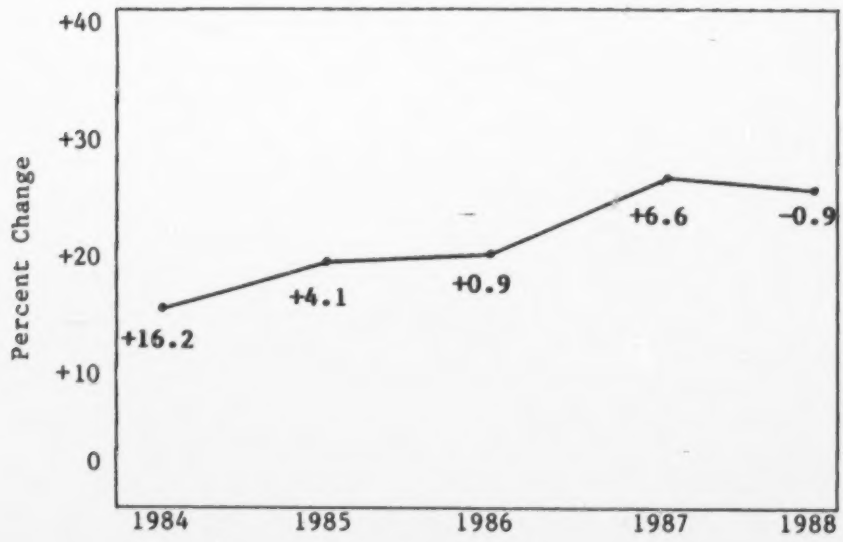
RAPE



Forcible Rape, by UCR definition, is the carnal knowledge of a female through the use or threat of force. Assaults to rape or attempts to commit rape are included in this category. One offense is counted for each victim of rape. Statutory rapes and other types of sexual assaults are not counted as rapes under the UCR program.

1988 SUMMARY

A total of 1,492 rapes was reported in 1988. During this year, rapes decreased 0.9 percent compared to those reported in 1987.

There were 948 rapes cleared by arrest or exceptionally cleared, amounting to a clearance rate of 63.5 percent statewide.

Rapes accounted for 5.8 percent of all violent crime and 0.8 percent of the total crime index.

The number of rapes committed per 10,000 persons was 4.3 percent statewide. The rate per 10,000 females was 8.4 percent, based on a state female population of 1,778,100.

Of all persons arrested for rape, 43.8 percent were under the age of 25. With respect to race, 34.4 percent were white, 65.6 percent were black.

Dangerous weapons were used in 14.5 percent of all rapes.

Victims in the age group 15-19 accounted for 24.1 percent of persons raped. The relationships of victims to offenders within the family represented 14.1 percent of the total; outside the family but known to the victim, 50.6 percent; strangers, 29.4 percent; and unknown relationships, 5.8 percent.

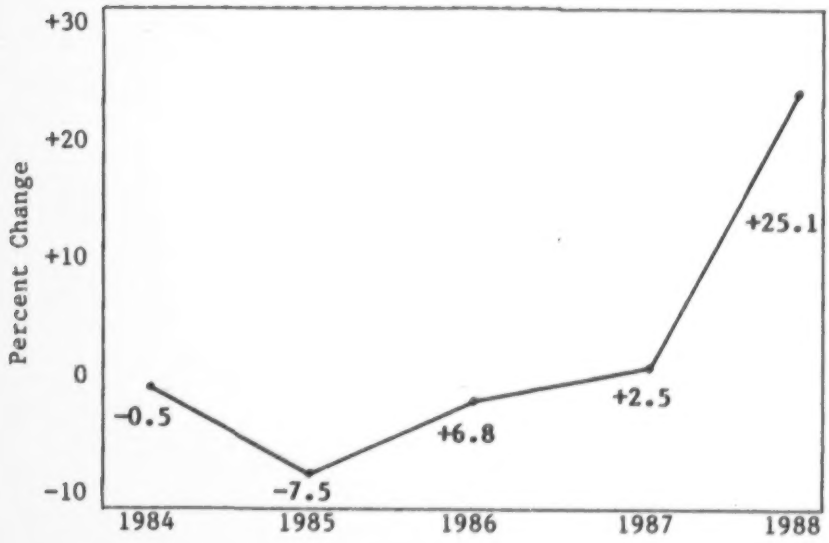
ROBBERY



Robbery, for UCR purposes, is defined as the unlawful taking of the property of another through the use or threat of force. Robbery is a violent crime in which the element of personal confrontation between the victim and offender is present. Attempts to rob are included in the robbery count. Armed robberies, those involving weapons, and strong-arm robberies, those not involving weapons, make up the two major categories. One robbery is counted for each distinct operation, regardless of the number of victims present at the time.

1988 SUMMARY

A total of 4,333 robberies was reported in 1988. During this year, robberies increased 25.1 percent compared to those reported in 1987.

There were 1,526 robberies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 35.2 percent.

Robberies accounted for 16.8 percent of all violent crimes and 2.3 percent of the total crime index.

The robbery rate in South Carolina was 12.5 per 10,000 persons.

The age group 25-29 accounted for 23.9 percent of persons arrested for robbery, followed by 11.8 percent for 30-34 years old. Males represented 93.5 percent of the total arrests made. Of all persons arrested for robbery, 22.1 percent were white, 77.7 percent were black, and 0.2 percent were other races.

Firearms were used in 31.5 percent of all robberies, cutting instruments in 14.0 percent, other weapons in 9.5 percent, hands and feet in 45.0 percent.

The greatest number of robberies reported for any premise type occurred on streets and highways, accounting for 33.5 percent of the total.

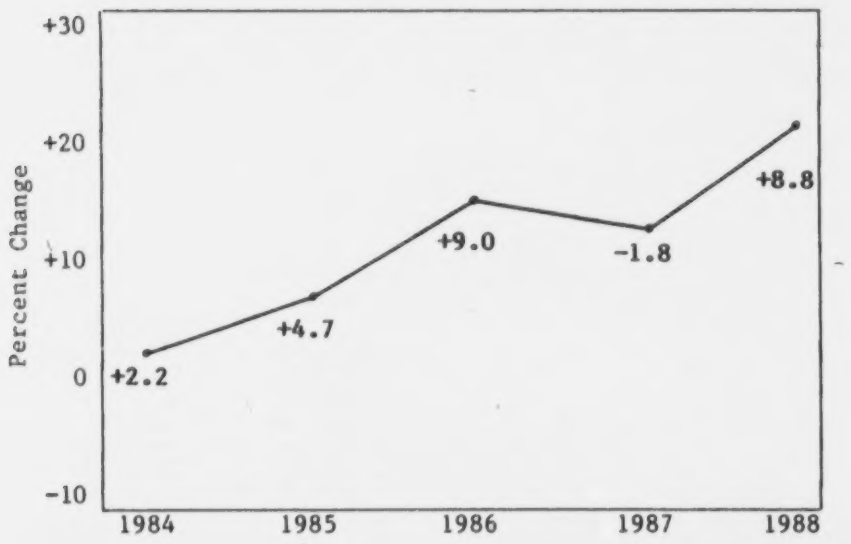
AGGRAVATED ASSAULT



Aggravated Assault, for UCR purposes, is defined as an unlawful attack by one person upon another with the intent of inflicting serious bodily injury. Aggravated Assaults are frequently accomplished through the use of or threatened use of dangerous weapons. However, assaults resulting in serious injury from the use of hands or feet are also counted in this category. Attempts to assault are counted here since it is not necessary that injury result whenever a dangerous weapon is employed. Attempts to commit murder are classified under this category. One offense is counted for each victim of aggravated assault.

1988 SUMMARY

A total of 19,636 aggravated assaults was reported in 1988. During this year, aggravated assaults increased 8.8 percent compared to those reported in 1987.

There were 12,200 aggravated assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 62.1 percent statewide.

Aggravated assaults accounted for 76.1 percent of all violent crimes and 10.4 percent of the total crime index.

The aggravated assault rate in South Carolina was 56.5 per 10,000 persons.

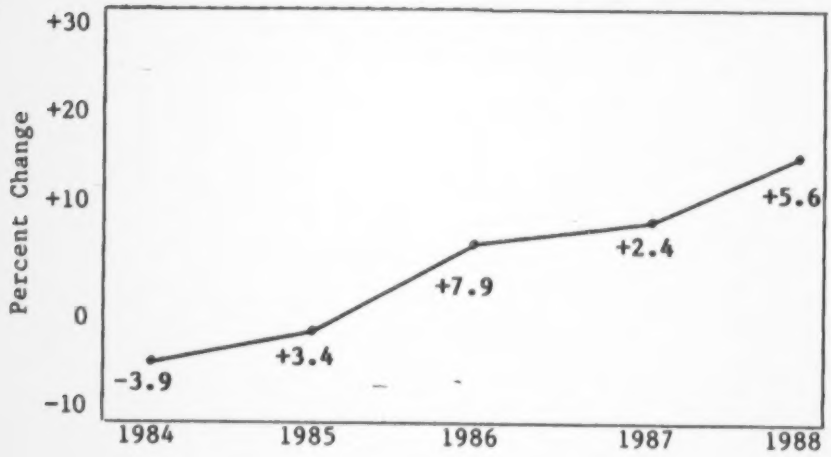
BREAKING OR ENTERING



Breaking or Entering, for UCR purposes, is defined as the unlawful entry of a structure with intent to commit a felony or theft. It is not necessary that force be used in gaining entry in order for the offense to be classified as an unlawful entry. Neither is it necessary that property loss occur in an unlawful entry or forcible entry for the crime to be counted in this category. Attempts to unlawfully enter a structure are also counted. One offense is counted for each distinct operation.

1988 SUMMARY

A total of 49,278 breaking or entering offenses was reported in 1988. During this year, breaking or entering offenses increased 5.6 percent compared to those reported in 1987.

There were 12,200 breaking or entering offenses cleared by arrest or exceptionally cleared, amounting to a clearance rate of 62.1 percent.

Breaking or entering accounted for 30.3 percent of all nonviolent crimes and 26.2 percent of the total crime index.

The age group 25.29 accounted for 14.1 percent of persons arrested for breaking or entering. Males represented 94.3 percent of the total arrests made. Of all persons arrested for this offense, 50.1 percent were white, 49.6 percent were black, and 0.3 percent were other races.

Of the three categories of breaking or entering, forcible entry accounted for 85.6 percent, unlawful entry 6.1 percent, and attempted forcible entry 8.3 percent.

Night operations accounted for 15.0 percent of breaking or entering offenses, daytime operations, 55.0 percent, and 29.9 percent occurred at unknown times.

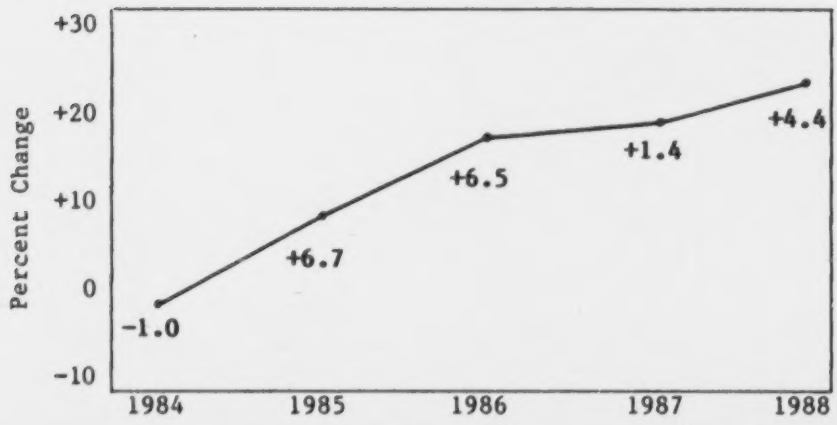
LARCENY



Larceny, for UCR purposes, is defined as the unlawful taking of the property of another without the use of force or fraud. Larceny does not have the element of unlawful entry. This offense category includes such crimes as shoplifting, purse-snatching, stealing items from vehicles and the like. Larceny does not include thefts by fraud,forgery,embezzlement or similar crimes. Motor vehicle thefts fall under a separate category and are not counted as larcenies. Attempts to commit larceny are included in this category. One offense is counted for each distinct operation, regardless of the number of victims.

1988 SUMMARY

A total of 102,622 larcenies was reported in 1988. During this year, larcenies increased 4.4 percent compared to those reported in 1987.

There were 21,191 larcenies cleared by arrest or exceptionally cleared, amounting to a clearance rate of 20.6 percent.

Larcenies accounted for 63.2 percent of all nonviolent crimes and 54.5 percent of the total crime index.

The larceny rate in South Carolina was 295.4 per 10,000 persons.

Persons under the age of 17 accounted for 20.2 percent of those arrested for all categories of larceny. Arrests of males accounted for 70.1 percent of the total.

Thefts of motor vehicle parts, accessories, and contents accounted for 16.8 percent of the larceny category, while shoplifting made up 14.7 percent, thefts of bicycles made up 5.1 percent, and thefts from buildings 6.2 percent.

Individual offenses in which property stolen amounted to $200 or more accounted for 35.0 percent of all larcenies, those from $50 to $200 accounted for 24.3 percent, and those of less than $50 for 40.7 percent.

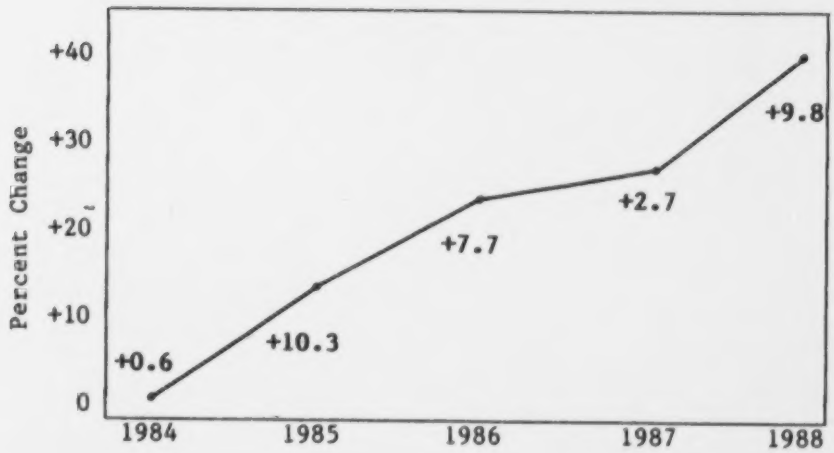
MOTOR VEHICLE THEFT



Motor Vehicle theft, for UCR purposes, is defined as the theft of a self-propelled vehicle that runs on the surface of the land but not on rails. Motor vehicles include automobiles, trucks, motorcycles and the like. This category does not include boats, airplanes or specialized items such as farm equipment, tractors, construction equipment, bulldozers etc. These specialized items are counted under the larceny category. Motor vehicle theft does not include using a vehicle without the owner's consent if prior consent or lawful access has been granted. Obtaining vehicles through fraud or failure to return rented vehicles are not included in this category. Attempts to steal motor vehicles as well as "joyrides" are counted as motor vehicle theft. One offense is counted for each vehicle stolen.

1988 SUMMARY

A total of 10,601 motor vehicle thefts was reported in 1988. During this year, motor vehicle thefts increased 9.8 percent compared to those reported in 1987.

There were 2,616 motor vehicle thefts cleared by arrest or exceptionally cleared, amounting to a clearance rate of 24.7 percent statewide.

Motor vehicle thefts accounted for 6.5 percent of all nonviolent crimes and 5.6 percent of the total crime index.

Of vehicles originally stolen in South Carolina, there were 6,495 recovered during 1988 for a recovery rate of 61.3 percent.

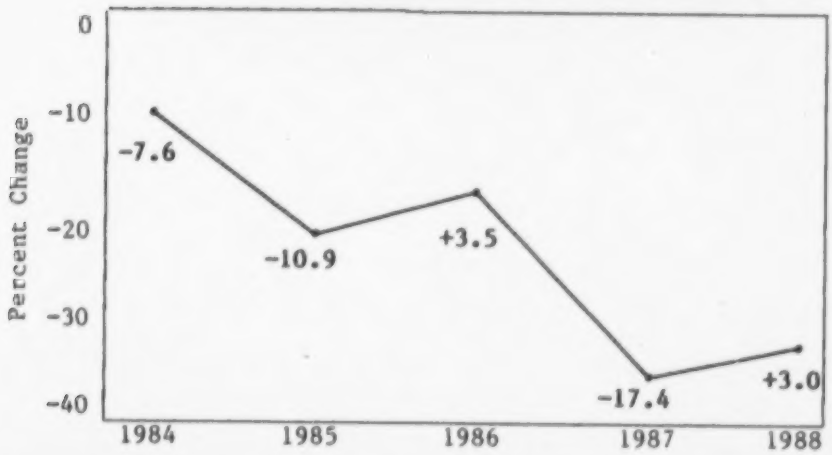
OFFICERS ASSAULTED



During 1988, there were 894 assaults upon law enforcement officers, an increase of 3.0 percent from those reported during 1987. Of these, 40.7 percent occurred while the officers were responding to disturbance calls; 23.0 percent while the officers were attempting to make general arrests; 10.7 percent while making traffic stops; and 6.6 percent while investigating suspicious persons. There were 854 police assaults cleared by arrest or exceptionally cleared, amounting to a clearance rate of 95.5 percent statewide.

Of the 894 officers assaulted, 7.3 percent were assaulted with firearms, 2.3 percent with cutting instruments, 10.1 percent with other weapons and 80.3 percent with hands, feet,etc.

Some degree of injury was sustained by 18.2 percent of officers assaulted; 76.7 percent of these injuries were caused by hands, feet, etc.

Of the 894 assaults on officers, 28.0 percent occurred between the hours of 8:00 PM and 2:00 AM.

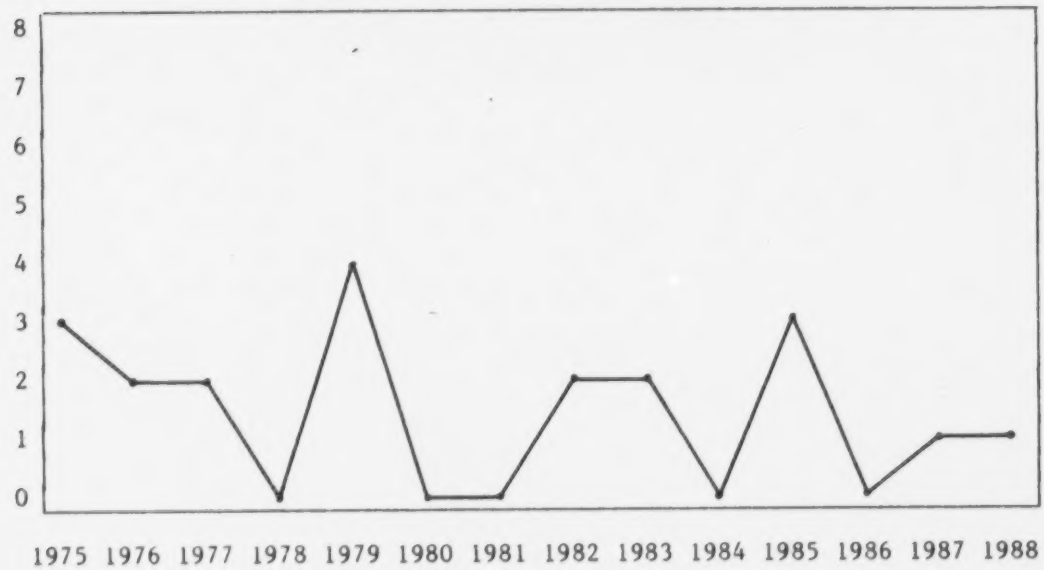
OFFICERS KILLED

SOUTH CAROLINA LAW ENFORCEMENT OFFICERS KILLED BY YEAR



During 1988, one South Carolina police officer was willfully killed in the line of duty.

On Saturday, October 29, 1988, at 10:30 P.M., a 41 year old Dillon County highway patrolman, while on routine patrol, was shot and killed with his own 357 caliber revolver after he stopped a suspect driving a vehicle with a defective taillight. He had sixteen years of police experience.

ARRESTS

The Uniform Crime Reports Program requires a daily reporting of data concerning persons arrested in the state. Records of arrests for criminal acts in both Part I and II crime classes are received from state, county and municipal law enforcement agencies in South Carolina and are classified by offense category and arranged according to age, sex and race of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of 182,929 arrests for Part I and Part II crimes was reported during 1988, a 4.4 percent increase over 175,243 arrests reported for the year 1987.

A person is counted on the arrest report each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. It should be noted that a person may be arrested several times during a given month for different offenses. This occurs frequently for such crimes as public drunk, disorderly conduct and similar violations. A juvenile is counted as "arrested" when the circumstances are such that, if he or she were an adult, an arrest would be counted, or when law enforcement or other official action is taken beyond a mere interview, warning or admonishment.

When reviewing arrest figures, it should be remembered that arrest counts do not reflect the specific number of persons arrested since, as has been pointed out, one individual may be arrested several times during any given month or year. However, arrest data are useful in measuring the extent of law enforcement activity in a given geographical area, as well as in providing an index for measuring involvement in criminal acts by the age, sex and race of the offenders.

Analysis of reported arrests for the year 1988 indicates that 15.9 percent of arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault, breaking or entering, larceny, motor vehicle theft, arson). Arrests for larceny comprised the highest percentage of Part I arrests, amounting to 53.8 percent, while arrests for driving under the influence comprised 15.5 percent of Part II arrests. Persons arrested for alcohol and drug violations (drug laws, DUI, liquor laws, drunkenness) accounted for 34.1 percent of all arrests made during the calendar year 1988.

SOUTH CAROLINA
ARREST CLOCK
1988

one
ARREST
Every 2 minutes, 52 seconds

one
INDEX CRIME ARREST
Every 18 minutes, 3 seconds

one
VIOLENT INDEX CRIME ARREST
every hour, 22 minutes

one
NON-VIOLENT INDEX CRIME ARREST
every 23 minutes, 10 seconds

one
PART II CRIME ARREST
Every 3 minutes, 25 seconds

The arrest clock should be reviewed with care. Being the most aggregate representation of arrest data, it is designed to convey the annual arrest experience by showing the relative frequency of occurrence of all arrests. This mode of display should not be taken to imply a regularity in arrests; rather, it represents the annual ratio of arrests to fixed time intervals.

INDEX CRIME RATES & AGENCY TOTALS

County crime rates per 10,000 population and index crime counts by county and agency are shown in the two tables of this section. The crime rates in the first table are based upon the latest population counts available from the State Data Center, Division of Research and Statistical Services. County population projections are based upon a State population total of 3,474,000 for 1988.

1988 COUNTY CRIME RATES PER 10,000 POPULATION
